SMILE TODAY

Smiling is infectious, you catch it like the flu.
When someone smiled at me today, I started smiling too.
I passed around the corner and someone saw my grin.
When he smiled I realized I had passed it on to him.
I thought about that smile, then realized its worth.
A single smile, just like mine, could travel round the earth.
So, if you feel a smile begin do not leave it undetected.
Lets start an epidemic, and get the world infected,

I am careful not to confuse excellence with perfection,
Excellence I can reach for,
Perfection is GODS business,
